

# WE ARE Sparkly Smiles

## ORAL EDUCATION

We educate children about:

- How to brush
- When to brush
- How long to brush
- Foods/beverages to avoid

## CLEAN

We clean:

- Plaque
- Calculus
- Tartar

## ORAL EXAMINATION

We examine:

- Number of teeth
- Check for cavities
- Check for oral conditions
- If your child is brushing well

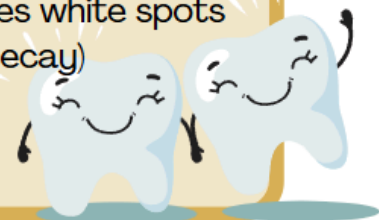

## FLUORIDE

Once treatment is complete fluoride is placed.

Why use fluoride?

- Strengthens the enamel
- Protects against tooth decay
- Reverses white spots (early decay)

## FISSURE SEALANTS

A white protective layer placed on the grooves of molars (back teeth) to prevent tooth decay.

## REFERRALS

If there is further treatment that your child needs a referral letter will be sent.

# SPARKLY SMILES

*day*

## HOW IT WORKS

1. The centre books a preferred day that has high student attendance
2. Parents scan the QR code to access the consent forms online
3. Parents complete the form online
4. Sparkly Smiles checks if the child is eligible for a free check up and clean with the Child Dental Benefits Scheme.

If child is not eligible payment options will be available for the parents to fill out

## HOW DO I KNOW IF MY CHILD IS ELIGIBLE UNDER THE DENTAL BENEFITS SCHEME

1. Child must be between the ages of 2-17
2. Your family is receiving Family Tax Benefit Part A or receiving government payment
3. Eligible for Medicare

## ON THE DAY OF OUR VISIT

1. Sparkly Smiles staff (clinician + dental assistant) arrive at 10am
2. The Centre only provides: a room, powerpoint and table
3. Students participating will be brought together in small groups for their dental check-up.
4. Each student will be assessed on their brushing habits, checked for cavities and any oral conditions. All assessments/treatments will be noted on a report.
5. Dental reports are emailed a few days later to the parents or given to the students on the day.
